PATENT

Claims 1-24 (Cancelled)

25. (Original) A laminated structure comprising:
a body having a peripheral edge, a first side, and a second side opposite said first side;
an adhesive coating applied to said first side of the body permitting a user to attach said body to a preselected surface;
and
a covering removably attached to the adhesive coating to prevent attachment of the body before the user removes the covering from the adhesive coating, said covering having a size and shape selected for covering at least a portion of the adhesive coating when attached to the adhesive coating, a release side for contacting the adhesive coating when the covering is attached to the coating, and a message side opposite said release side;
wherein said message side of the covering includes indicia directed to communicating a message to the user related to at least one of motivating the user, entertaining the user, educating the user, and inspiring the user.

26. (New) A laminated structure as set forth in claim 25 wherein said body is an absorbent body.

a1 27. (New) A laminated structure as set forth in claim 26 wherein said message side of the covering is substantially free of messages related to using the laminated structure.

28. (New) A laminated structure as set forth in claim 27 wherein:

KCC 4776 (K-C 17,047)
PATENT

said laminated structure is a first laminated structure;
said first laminated structure is grouped with a second
laminated structure; and
said first and second laminated structures are received in a
container.

29. (New) A laminated structure as set forth in claim 28
wherein said second laminated structure is substantially
identical to said first laminated structure.

30. (New) A laminated structure as set forth in claim 28
wherein the container includes a message related to using the
laminated structure.

31. (New) A laminated structure as set forth in claim 30
wherein the message related to using the laminated structure is
printed on an exterior of the container.

32. (New) A laminated structure as set forth in claim 26
wherein said message side of the covering is substantially free
of messages related to designating a source of the laminated
structure.

33. (New) A laminated structure as set forth in claim 32
wherein:

said laminated structure is a first laminated structure;
said first laminated structure is grouped with a second
laminated structure; and
said first and second laminated structures are received in a
container.
